MAVERICK X ds TECHNOLOGIES

INDUSTRY-LEADING PERFORMANCE

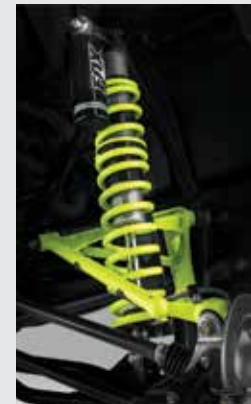

We boosted the performance of the proven Rotax® 1000R engine with the industry's first factory-installed turbocharger option enabling it to produce an impressive 121 HP. The Continuously Variable Transmission (CVT) showcases a completely redesigned driven pulley with a NEW Quick Response System (QRS) and an improved drive pulley that allows better power transfer and a faster engagement time.

This NEW package takes all the groundbreaking innovations of the Can-Am Maverick and optimizes them to deliver the most powerful side-by-side vehicle in the industry.

PRECISION-ENGINEERED HANDLING

Every component helps maximize the handling and steering of the Maverick X ds so you maintain full control over its best-in-class power.

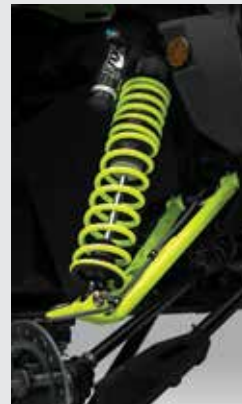

Exclusive FOX® 2.5 PODIUM® RC2 HPG Piggyback shocks with bottom-out control

Front and rear shocks with compression and preload adjustments.

Torsional Trailing A-Arms rear suspension (TTA)

Redesigned with 16 in. of travel.

Double A-Arm front suspension

Redesigned with 15 in. of travel.

RIDER-FOCUSED DESIGN

Comfort, convenience and versatility are all packaged ergonomically so both rider and passenger make the most of every ride.

Cockpit

Experience high-end comfort in the Maverick cockpit.
